A. Data Loss Prevention determines data loss from hardware.
B. Data Loss Prevention scans the network for loss of data.
C. Data Loss Prevention analyzes data contamination.
D. Data Loss Prevention is an external data application.
Answer: D

5.Computers hosting certain Symantec Control Compliance Suite 11.0 components should be colocated on the same LAN segment.

Which group of CCS components must be topologically deployed together?
A. Application Server, Production Database, and CCS Manager Collector
B. Application Server, CCS Manager Load Balancer, and CCS Manager Collector
C. CCS Manager Collector, CCS Manager Reporter, and CCS Manager Evaluator
D. CCS Manager Load Balancer, CCS Manager Reporter, and CCS Manager Evaluator
Answer: D

6.What is the recommended initial size and auto growth rate for TempDB on the Reporting Database Server in a very large scale Symantec Control Compliance Suite 11.0 deployment?
A. 5 GB - 10%
B. 5 GB - 20%
C. 20 GB - 10%
D. 20 GB - 20%
Answer: C

7.What are two functions of the Control Compliance Suite 11.0 (CCS) Directory? (Select two.)
A. It stores the asset data and user rights.
B. It manages the system scheduling and workflow.
C. It hosts the certificate authority for the CCS system.
D. It manages web-based dashboards.
E. It executes all standards-based jobs.
Answer: D,E

8.Symantec Control Compliance Suite 11.0 deployment models designed to collect and evaluate data from 2,000 assets should have two SQL Server systems: one to host the reporting database and the other to host the production database.
What is the minimum recommended memory configuration for each SQL system?
A. 8 GB
B. 12 GB
C. 16 GB
D. 32 GB
Answer: A

9.An organization has 5,000 assets that must be scanned weekly for the next calendar year using standards containing 350 checks.
What is the approximate amount of Reporting Database disk space required for each standard?
A. 100 GB
B. 300 GB
C. 500 GB
D. 700 GB
Answer: B

10.Which feature allows temporary permissions that exempt an asset from following an organizational policy for a specific time period?

A. Exceptions
B. Exemptions
C. Allowances
D. Exclusions
Answer: A

11.A customer needs to map internal requirements documents to mandates and controls. The customer also needs to track who has read these documents.
Which Symantec Control Compliance Suite 11.0 module should the customer use?
A. Symantec Control Compliance Suite Assessment Manager
B. Symantec Control Compliance Suite Risk Manager
C. Symantec Control Compliance Suite Vulnerability Manager
D. Symantec Control Compliance Suite Policy Manager
Answer: D

12.Symantec Control Compliance Suite 11.0 Risk Manager provides which functionality?
A. configuration assessment of IT assets
B. evaluation of procedural controls by providing automated web-based questionnaires
C. simplification of the policy management life cycle
D. a view of IT risk related to a business asset such as a business process, group, or function
Answer: D
